

REMARKS

Attached Form 1449 (Exhibit B) includes a copy of patentee's Petition for Rehearing which was filed with the United States Court of Appeals for the Federal Circuit on February 22, 2001. The Petition is directed to the Federal Circuit's February 8, 2001 decision on appeal (included in the Petition) which in pertinent part affirmed the U.S. District Court for the Eastern District of Michigan summary judgment decision of invalidity on obviousness grounds of claims 5 and 6 of U.S. Patent No. 5,661,645, which are identical to the allowed claims 5 and 6 in this application. As set forth in the Petition for Rehearing, patentee seeks to clarify whether the Federal Circuit's February 8, 2001 decision precludes patentee from bringing a motion to reopen the judgment in the district court to determine non-obviousness of claims 5 and 6 in a summary judgment context in light of the allowance of claims 5 and 6 in the reissue proceedings.

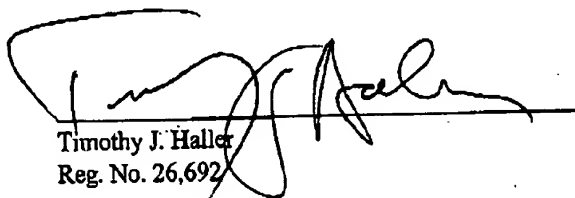

To date there has been no decision on the Petition for Rehearing. Accordingly, on February 23, 2001, patentee filed a continuation application by Express Mail (no serial number for the continuation application has been received to date and the transmittal filing papers are attached as Exhibit C). It is patentee's intention that the present application continue to issue without claims 5 and 6. In so doing all remaining claims then issuing in this application will be canceled out of the continuation application whereby the pendency of claims 5 and 6 can be maintained pending a clarification of their status before the Federal Circuit and potential further proceedings thereon before the district court.

Pursuant to Rule 312(b), a petition directed to this amendment was filed. Necessarily the Federal Circuit's decision on claims 5 and 6 was not known until after the payment of the Issue Fee herein on February 5, 2001 whereby the present amendment became necessary and was not earlier

presented. A further Supplemental Declaration for Reissue Patent Application dated February 28, 2001 is attached as Exhibit D, as understood by patentee to be required.

In summary, it is requested that claims 5 and 6 be canceled with the remainder of the allowed claims being passed to issue.

Respectfully submitted,

Timothy J. Haller

PETITION FOR REHEARING

Relume respectfully seeks panel rehearing for the limited purpose of clarification, and not necessarily to seek a change in the outcome of the panel's decision. The Court's judgment affirmed the summary judgment of invalidity entered by the Eastern District of Michigan. The Court's judgment does not appear to have taken into account the fact that two patent claims invalidated by the district court as obvious (claims 5 and 6 of United States Patent No. 5,661,645) were held patentable by the Patent and Trademark Office during reissue proceedings. The Patent and Trademark Office held claims 5 and 6 patentable after having considered (1) the same prior art relied on for invalidity by the district court, (2) the opinion and judgment of the district court and (3) the appeal brief filed by appellees seeking to defend the district court's judgment.

It follows that the panel did not consider this post-district-court-judgment event in its disposition of this appeal because if it did, Supreme Court authority would have required the judgment to have been vacated. See Commissioner of Patents and Trademarks v. Zurko, 119 S.Ct. 1816 (1999) (reversing Federal Circuit, and holding decisions of the Patent and Trademark Office entitled to the great deference accorded decisions of administrative agencies).

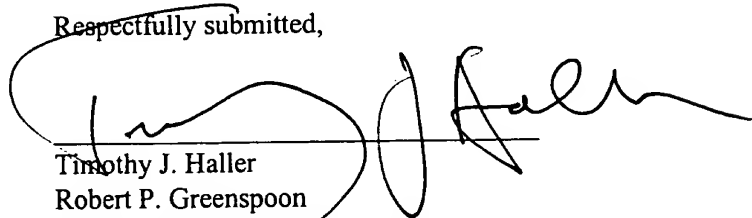

Relume seeks clarification that the appellate court mandate will not preclude reopening the judgment in the district court on remand under Fed. R. Civ. P. 59 or 60 to consider this additional intervening evidence of non-obviousness. The decisions of this Court require that a district court *always* consider the decision of the Patent and Trademark Office, particularly where as here the Patent and Trademark Office considered the same prior art asserted to be invalidating in the district court. Interconnect Planning Corp. v. Feil, 774 F.2d 1132, 1139 (Fed. Cir. 1985); Fromson v. Advance Offset Plate, Inc., 755 F.2d 1549, 1555 (Fed. Cir. 1985) ("The Examiner's decision, on an original or reissue application, is never binding on the court. *It is, however, evidence the court must*

*consider in determining whether the party asserting invalidity has met its statutory burden by clear and convincing evidence."); American Hoist & Derrick Co. v. Sowa & Sons, 725 F.2d 1350, 1359-60 (Fed. Cir. 1984) ("When no prior art other than that which was considered by the PTO examiner is relied on by the attacker, he has the added burden of overcoming the deference that is due to a qualified government agency presumed to have properly done its job. . . . When an attacker simply goes over the same ground traveled by the PTO, part of the *burden* is to show that the PTO was wrong"). The Patent and Trademark Office's disposition of the reissue claims did not occur until the pendency of this appeal. Therefore, the first time the district court will have the opportunity to carry out its obligation to consider the information will be upon remand.*

For the foregoing reasons, Relume respectfully requests rehearing for the sole purpose of clarifying that the appellate decision does not preclude Relume from bringing a motion under Fed. R. Civ. P. 59 or 60 to reopen the judgment to determine non-obviousness of claims 5 and 6 in light of Patent and Trademark Office reissue proceedings.

Lastly, we are aware of the great likelihood that this petition, like most, will be denied without comment. It will be greatly appreciated if the Court will indicate its views to minimize the need to litigate the "law of the case" issue in the district court.

DECIDED: February 8, 2001

Before CLEVINGER, SCHALL, and BRYSON, Circuit Judges.

CLEVINGER, Circuit Judge.

Relume Corporation ("Relume") appeals from the summary judgment of the United States District Court for the Eastern District of Michigan, holding that the defendants' accused products do not literally infringe the asserted claims of U.S. Patent No. 5,661,645 ("the '645 patent") or U.S. Patent No. 5,783,909 ("the '909 patent"), both

assigned to Relume, and holding that both patents are invalid. Relume Corp. v. Dialight Corp., 63 F. Supp.2d 788, 802 (E.D. Mich. 1999). We affirm.

I

Relume raises several arguments on appeal: (1) whether the district court erred in its interpretation of certain limitations in the patents, (2) whether such errors in claim interpretation led to errors in the court's analysis of the validity issues, (3) whether disputed issues of material fact preclude summary judgment on the validity issues, and (4) whether alleged errors in claim interpretation or the disputed issues of material fact undercut the district court's judgment of no literal infringement.

II

We have fully reviewed the careful, extensive and well-crafted opinion of the district court. We have carefully examined the arguments presented by the parties in their briefs and have considered in full the arguments made by the parties at oral argument.

For the reasons stated in the opinion of the district court, we agree that all of the asserted claims of the '645 and '909 patents are invalid. Because we affirm the district court's judgment on the validity issues, we need not reach the questions raised by Relume as to the judgment of noninfringement.
